Power Questionnaire

This questionnaire is a way for you to tell us what you need.

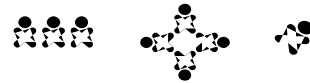

Q1. Describe any problems you have had relating to power

Q2. How do students normally use the laptops?

☐ Together in groups

☐ Side by side in lines

☐ Randomly

How many in a group? _____

How many in a line? _____

How many groups? _____

How many lines? _____

Q3. Do students use their laptops during break time? ☐ Yes ☐ No Why?

Q4. How many students with laptops are in your class? _____

Q5. How many laptops can you charge at the same time? _____

Q6. How many laptops can be plugged in and used by students at the same time? _____

If every laptop can not be plugged in and used by a student at the same time, explain why

Q7. Is it important for all children to be able to use their laptops while plugged in at the same time? ☐ Yes ☐ No Why?

Q8. Is it safe for children to be around your existing power setup? ☐ Yes ☐ No Why?

Q9. Is your existing power setup ideal? ☐ Yes ☐ No Why?

Q10. Do you have any ideas how the power problems you are facing might be solved?

Write down or draw any ideas you have. It doesn't matter if your ideas are unusual, odd or something that has never been tried before. *

* Things you might want to consider;

- How to prevent students tripping over power cables
- If your classroom is rearranged regularly – will you need to move the cables?
- Draw a plan of your classroom and where power cables should go.
- How crowded your classroom is.

Thank You
